## Business Management Software for Retail Chains

### □ Salient Features of the Software:

- ❖ Centralised Multi-Branch, Multi-Godown, Multi-User Software. All the Branches and Godowns connect to HO over Internet / VPN.
- ❖ You get following Advantages due to Centralisation of Data:
  - All the Invoices / Collections made at Branches are saved at HO Server.
  - Management can get at-the-moment status of Stock / Sales.
  - Each Branch knows Stock at other Branches / Godowns.
  - Each User is linked with a Branch & can update the Data related to that Branch only.
  - No need to Export / Import Data from Branches to HO.
  - No Software needs to be installed at Branches. Therefore, no support is required at the Branches.
  - No Incremental Cost for the New Branches.
  - Combined Stock / Sale of all Branches / Godowns can be given.
  - Reorder Level of various items at each Branch can be defined. Therefore, you get Combined Report of all the items that need to be purchased.

### □ Purchase Module

- Inward (GRN) and Commercial Invoice from Supplier.
- Combined Challan cum Invoice.
- Barcodes can be generated.

### □ Sales Module

- Delivery from Showroom: Invoice automatically updates Accounts and Inventory.
- Delivery from Godown: Commercial Invoice updates Accounts only. Delivery Challan is made at Godown against Commercial Invoice, Stock is updated.
- Item wise VAT % can be defined and used automatically at the time of invoicing.
- Reverse calculation of VAT amount at the time of invoicing.
- Collection: Combination of Cheque, Cash, Credit Card, Buy Back.

□ Accounts Module

- Multiple Creditors and Debtors Control Accounts.
- Multiple Branch-wise Bank Books, Cash Books, Purchase Registers, Sales Registers, Journals, Debit Note Registers, Credit Note Registers, Inward Registers, Delivery Challan Registers.
- Chart of Accounts (Accounts Master) Structure can be of Multiple Levels.
- Bank Reconciliation and Bank Interest Calculation Facilities.
- All Standard Features of any Accounting System from Vouchers to Balance Sheet are available.

□ MIS Reports

- Cash Flow Statement.
- P & L / Balance Sheet.
- Cost Center wise Book Listings.
- Pending GRN / DC Reports.
- Daily Receipt / Payment Report.
- Bank Reconciliation Statement.
- Party / Bank Interest Calculation.
- Outstanding Reports.
- Many More Accounts Reports.

□ Stock / Sales Reports

- Stock Statement.
- Stock Ledger Report.
- Stock Transfer Report.
- Quantitative Details Report.
- Party wise Product wise Report.
- Location wise Item wise Stock Report.
- Location wise Item wise Sales Report.
- Location wise Item wise Balance Report.
- Invoice Collection Break-up Report.
- Location wise Stock Ageing Report.
- Total Stock Ageing Report.
- Average Sales per Product.
- Receipt Type (Cash / Cheque / Credit Card) wise Sales Report.
- Salesman wise Sales Report.
- Sub Group wise Sales Purchase Report.
- Sales Analysis.

□ VAT Reports

- Bill wise VAT Report.
- Percentage wise VAT Report.
- Item wise VAT Report.
- Confirmation Report.
- Tax Summary.

□ Letter Printing

- Outstanding Letter
- Balance Confirmation

□ General Features of the software:

1. User-friendly Software. No computer literacy is required to use the system.
2. Security is available not only at the program level, but even at the function level. You can disable Add, Change, Delete options for some users.
3. On-the-fly (Drill-down) feature is available. You can directly go from Trial Balance to Ledger, Ledger to Voucher.
4. Report Export in .DBF, .XLS, .TXT, .HTML, .PDF and many other formats.
5. Passwords are encrypted while saving. Therefore, even a DBA cannot see the password.
6. Barcode Support is available. Barcodes can be generated at the time of purchase of goods. At the time of invoicing, one can scan the barcode instead of entering item codes.
7. Supplier's Serial Number for each item can be entered at the time of purchase. Same is selected while making invoice. This is useful for warranty claims.
8. Service Module, Warranty Module and Customer Relationship Management (CRM) modules are also available.
